**Web-based Property Database Presents a New Opportunity to Showcase  
Pitt Meadows as the Natural Place to Invest**

**PITT MEADOWS, B. C.** – The Pitt Meadows Economic Development Corporation invites Realtors to start loading their commercial/retail and industrial listings into its brand-new web-based property search database. This web-based marketing tool provides potential investors with an up-to-date inventory of available lands and built spaces that are for sale or lease in Pitt Meadows.

“When potential investors request information, few cities are able to provide comprehensive and accurate information on the available land and commercial/industrial building stock available in the community. This is largely due to the fact that spaces change quickly and real-estate websites list information by paid subscription,” says Kate Zanon, CEO, Pitt Meadows Economic Development.

To overcome this challenge, the City of Pitt Meadows along with the Economic Development Corporation have created a web page where realtors can easily list their available land, buildings, and units and update their information as it changes. The key result of this project when populated will be a comprehensive and accurate listing of what land and built space is available in Pitt Meadows, in a format that is accessible 24/7 to anyone, anywhere in the world.

A handful of Realtors have already started loading their commercial, retail, and industrial listings into the system. Christina Hall, Leasing Representative at Shape Properties mentions, “The system is well-laid out and simple to use. I plan to fully utilize this web-based system and look forward to working with Pitt Meadows Economic Development to promote my listings.”

With a quick call or email to Pitt Meadows Economic Development, Realtors can be registered to use the system within a matter of minutes. Before they know it, they’ll have an entirely new tool to market their listings. Best of all, there is no fee to use the system and the City of Pitt Meadows website is loaded with relevant community information that will assist investors in making their decision to locate to Pitt Meadows.

Currently, this system can be accessed from the Economic Development section from the City of Pitt Meadows website [www.pittmeadows.bc.ca](http://www.pittmeadows.bc.ca) (under Business tab > Economic Development > Commercial Property Search)

Pitt Meadows Economic Development received its Corporation status in March 2010 and has recently opened its doors at 12492 Harris Road, Pitt Meadows. The transition from City function to the Corporation structure has been a vision of the Pitt Meadows City Council since the adoption of the Economic Development Strategic Plan in fall 2008.

For information on economic development services in Pitt Meadows, you can reach the team by visiting the office at 12492 Harris Road, by phone: 604-465-9481 or by email: [EDinfo@pittmeadows.bc.ca](mailto:EDinfo@pittmeadows.bc.ca). A grand opening of the office with an opportunity to meet the Board and staff will follow later this spring.
